

Autex Indications of Interest and Trade Advertisements

Streamline your workflow and improve executions with a broad view of broker liquidity.

If you're a buy-side equity trader seeking a clear competitive advantage, look no further.

Thomson Reuters Eikon brings together Autex IOI's and Trade Advertisements from global brokers alongside powerful pre-trade decision support, exclusive Reuters news, market data, and analytics tools, filtered by your precise needs, and displayed on the world's most intelligent, intuitive and open desktop or mobile application.

STREAMLINE YOUR WORKFLOW AND IMPROVE TRADE EXECUTION

Streamline your workflow with **Autex Indications of Interest** and Trade Advertisements integrated into single and powerful desktop. Improve the speed and efficiency of your trade execution by receiving IOI alerts on the symbols in your quotelists, and highlighting the brokers that are most active in each stock.

MONITOR BROKER LIQUIDITY AND ACTIVITY

Autex Indications of Interest and Trade Advertisements allow you to easily monitor and view broker liquidity and activity, including indications, advertisements, and broker rankings for the stocks that you are active in.

The Autex applications allow buy-side traders to:

- View broker's IOIs in real-time – over 4.5 million messages per day, including Supers, Generals, and approximately 1,000,000 Naturals
- View Trade Advertisements by broker, symbol groups and/or sectors
- Access real-time and historic Trade Advertisements and IOIs
- View intra-day broker rankings by volume traded in a given symbol
